

## ***Managing Civil Actions in Threat Incidents (MCATI): Protester Devices (PER 202)***

This course provides State and local public safety agencies with the skills and tactics necessary to prepare for and successfully mitigate protesters and their devices. The course combines classroom instruction detailing the history of devices, types of devices, tools to be considered for extrication, and safety considerations. The course includes hands-on techniques using tools for defeating improvised protester devices. The primary course objective of this MCATI program is to teach methods of recognizing, responding to, and counteracting protester tactics, such as human chains, barriers, and improvised devices. Additional course topics will include, but not be limited to, extracting protesters, disabling devices, diverting attempts to create blockages, lock picking, teamwork, and power tools/machines.
